Nvidia A100 and A30 GPU Servers Engineered by Koi Computers

We have a new line of enterprise servers supporting the Nvidia A100 and A30 GPUs for HPC and General Purpose computing called XTremeAI. These systems support the most powerful Nvidia GPUs and Nvidia networking products for optimal performance, functionality, scalability, and security. The XTremeAI series servers have predictable performance and enable organizations to quickly deploy optimized platforms for AI, Data Analytics, HPC and other accelerated workloads.

Our newly launched XTremeAI Series servers feature:

- 3rd Gen Intel® Xeon® Scalable or AMD EPYC™ 7003 Series Processors
- Support for up to 8 NVIDIA A100 (80GB) or A30 GPUs
- NVIDIA Ethernet or Infiniband Interconnects
- Preinstalled AI software stack such as PyTorch, Caffe, TensorFlow, and more
- TAA Compliant – available on 2GIT, CIO-CS, SEWP V, and GSA MAS IT Category

We have deployed 100s of enterprise servers, clusters, and workstations integrated with Nvidia GPUs for the federal government and military. Our strong partnership with Nvidia and deep experience integrating Nvidia solutions provides our clients with the assurance that they are getting the best possible solution for their application. To explore our server platforms supporting the Nvidia A100 and A30, visit <https://www.koicomputers.com/products/gpu-servers/nvidia-datacenter-platform/>

To get started with our Sales and Engineering team to configure servers and clusters integrated with Nvidia GPUs, contact us at 888-LOVE-KOI (888-568-3564); email: sales@koicomputers.com or fill out the contact form at: <https://koicomputers.com/contact-us/>

About Koi Computers

Headquartered in Greater Chicago since 1995, Koi Computers has been working with top technology manufacturers to deliver scalable high performance computing and technology solutions that improve efficiency, reliability and speed. The company's world-class engineering team specializes in building custom IT solutions that accommodate today's needs and tomorrow's vision with services that include performance benchmarking and outstanding support. Koi Computers has a strong track record of developing, building and deploying HPC technology for the U.S. Federal Government with satisfactory ratings in CPARS and Past Performance. The company is a Prime Contract Holder of the GSA 2GIT, NASA SEWP V, GSA IT Schedule 70 and NITAAC CIO-CS contracts.
